

1010W Heavy-Duty Impact Wrench

This 1010W impact wrench is a versatile tool for heavy-duty fastening. Its high-torque motor provides exceptional power for driving and removing stubborn bolts and nuts.

Product Overview

Heavy-Duty Performance

The 1010W Impact Wrench is a powerful and versatile tool engineered for demanding fastening applications. Designed with a high-torque motor, it delivers exceptional power for driving and removing stubborn bolts and nuts in automotive, construction, and industrial environments. Its durable construction ensures reliability on tough job sites, while the ergonomic design helps reduce user fatigue during extended operation.

Technical Specifications

Power Output	1010 W
Voltage/Frequency	230-240V/50Hz
No Load Speed	2200 rpm

Performance Metrics

Maximum Torque

450 Nm

Max Torque

Included Accessories

Included Sockets

- 17mm
- 19mm
- 21mm
- 22mm

Design & Build

Motor Material

Copper

Cable Length	2 M
