

1050W Electric Demolition Breaker

This demolition breaker features a robust 1050W motor for powerful performance. It is designed for efficient breaking of concrete, asphalt, and other hard materials.

Overview

A powerful 1050W solution for efficient breaking of concrete and hard materials.

High-Performance 1050W Demolition Breaker

The 2810T is a professional-grade electric demolition breaker designed for heavy-duty applications such as concrete breaking, asphalt removal, and machinery installation. Powered by a robust 1050W motor, it delivers a consistent 8J of impact energy at a rate of 2900 impacts per minute. Engineered with a unique vibration damping mechanism and ergonomic TPE handles, it ensures operator comfort and efficiency during extended industrial use.

Performance

Key Performance Metrics

1050 W

Input Power

8 J

Impact Energy

2900 /min

Impact Rate

Technical Specifications

Technical Details

Parameter	Value
Model	2810T (0810 Type)
Voltage	220V-240V
Frequency	50-60Hz
Weight	5.3kg
Chuck Type	Tool-free Steel Chuck

Design & Ergonomics

The 2810T features a 360° swivel handle and industrial-grade impact power for professional demolition tasks.

Ergonomic Features

- 360° Non-slip swivel side handle for versatile positioning
- Unique vibration damping mechanism to reduce user fatigue
- TPE auxiliary handle for comfortable grip
- Switch lock button for continuous operation
- Reversible stepless speed control switch

Construction Quality

Equipped with a reinforced iron body case and aluminum gearbox for maximum motor protection and tool longevity.

Build Quality

- Reinforced aluminum gearbox for durability
- Reinforced iron body case for motor protection
- Industrial-grade internal components

Applications

Primary Applications

Pipeline Laying, Machinery Installation, Construction Work, Interior Decoration, Demolition, Chiseling

Package Contents

Included Accessories

- Carbon Brushes
- Wrench
- Carrying Case
- Auxiliary Handle
