

105mm Turbo Rim Diamond Cutting Blade

This diamond cutting blade is designed for cutting granite, marble, concrete, and brick. It features a turbo rim design for fast, clean cuts and can be used in wet or dry applications.

Product Overview

Professional Turbo Rim Diamond Blade

This 105mm turbo rim diamond cutting blade is engineered for high-performance cutting across a variety of hard masonry materials, including granite, marble, concrete, and brick. The specialized turbo rim design ensures fast and clean cuts while significantly reducing chipping for a professional finish. Designed for versatility, this blade is suitable for both wet and dry cutting applications, making it an essential tool for construction and masonry professionals.

Technical Specifications

Blade Diameter	105 mm
Arbor Size	20 mm

Performance Metrics

Operating Limits

14500 RPM
Maximum RPM

80 m/s
Max Cutting Speed

Compatibility

Cutting Applications

Wet Cutting • Dry Cutting

Suitable Materials	Granite, Marble, Concrete, Brick
