

# 1080P IP69K Waterproof Vehicle License Plate Camera

This 1080P rear license plate camera is designed for vehicles, offering high-definition video capture and robust waterproof capabilities. With an IP69K rating, it withstands high-pressure, high-temperature washdowns, ensuring reliable performance in harsh environments.

## ADDITIONAL IMAGES

## Product Overview

### High-Definition Vehicle Safety

This 1080P rear license plate camera is engineered to provide superior visibility for a wide range of vehicles, including cars, trucks, SUVs, and buses. Featuring an IP69K waterproof rating, the unit is built to withstand harsh environmental conditions, including high-pressure and high-temperature washdowns. Integrated infrared LEDs ensure reliable performance and clear imaging even in low-light scenarios, significantly enhancing driver safety during reversing and maneuvering.
