

1080P Outdoor Security Floodlight Camera

This outdoor security camera provides high-definition 1080P video recording and enhanced illumination. It features a wide-angle lens, motion detection, night vision, and remote smartphone access.

Overview

Smart Security & Illumination

This 1080P Outdoor Security Floodlight Camera combines high-definition surveillance with powerful, motion-activated lighting to secure your property effectively. Featuring two-way talk, customizable motion zones, and a 110dB siren, it provides comprehensive protection and real-time alerts directly to your smartphone. Designed for durability, its weather-resistant build ensures reliable performance in outdoor environments, while the 2000LM floodlights offer excellent visibility at night.
