

1080P Outdoor Security Floodlight Camera

This outdoor security camera combines high-definition video capture with powerful LED floodlights. Smart features include remote viewing and motion detection for comprehensive surveillance.

Overview

Smart Outdoor Surveillance & Lighting

This 1080P Outdoor Security Floodlight Camera offers a dual-purpose solution for property protection, combining high-definition video surveillance with powerful motion-activated lighting. Designed for resilience and ease of use, it allows for seamless smartphone control, two-way communication, and customizable motion detection zones. With integrated features like a 110dB siren and emergency calling, this device provides a comprehensive security layer for any outdoor environment.
