

1080P Super Wide Angle Waterproof Mini Camera for Vehicle Reversing

This 1080P super wide-angle waterproof mini camera is designed for use when reversing, assisting drivers with rear-view visibility. The camera is IP69K waterproof and anti-vibration rated.

Product Overview

Professional Vehicle Reversing Camera

This 1080P high-definition mini camera is engineered for vehicle reversing assistance, providing drivers with a clear and comprehensive rear view. Designed for harsh environments, it features an IP69K waterproof rating and robust anti-vibration capabilities according to ISO 16750-3 standards. With a 170-degree super wide-angle lens, it ensures maximum visibility and safety during operation.

Imaging Performance

Effective Pixels	1920 (H) X 1080 (V)
Viewing Angle	170 °
Minimum Illumination	0.01Lux
TV System / Frame Rate	25/30fps
Imaging Technologies	Progressive Scanning, Auto AGC, Auto White Balance, Auto BLC

Environmental & Durability

Ingress Protection

IP69K

Anti-vibration Standard

17.3 G

Max Vibration Resistance

Operating Temperature

-20°C ~ +70°C

Technical Details

Power Supply	12 V
Video Output	0.9 Vp-p, 75Ohm
Pixel Size	2.8um x 2.8um
