

1080P WDR Vehicle Front View Camera

This front view camera provides high-definition imaging for vehicles. It features Wide Dynamic Range (WDR) technology for clear visibility in various lighting conditions.

Overview

High-Definition Vehicle Safety

This 1080P front-view camera is engineered specifically for trucks and heavy-duty vehicles to enhance driver visibility and operational safety. Equipped with advanced Wide Dynamic Range (WDR) technology, it ensures clear imaging even in challenging lighting conditions, such as direct sunlight or deep shadows. The unit features robust construction designed to withstand demanding environments, providing reliable performance for fleet management and safety monitoring.

Technical Specifications

Resolution	1080P
Lens Specification	6mm IR
Key Imaging Features	1080P HD, WDR Technology, Night Vision

Application

Suitable For

- Trucks
- Commercial Vehicles
