

10.8V Cordless Two-Speed Impact Drill

This 10.8V cordless impact drill is designed for drilling and fastening applications. It features a two-speed gearbox for adjustable speed settings, with an impact function for drilling into hard materials.

Product Overview

Versatile Cordless Performance

The 10.8V Cordless Two-Speed Impact Drill is a compact and efficient power tool engineered for a wide range of drilling and fastening tasks. Featuring a flexible two-speed gearbox, it allows users to optimize speed settings for different materials, while the integrated impact function provides the necessary force for tougher surfaces. Its cordless design, powered by reliable Lithium-ion technology, offers excellent mobility and ease of use in professional work environments.

Technical Specifications

Voltage	10.8 V
Battery Technology	Li-ion

Performance Metrics

Key Performance Indicators

23 N.m Max Torque	1400 RPM Max Speed
-----------------------------	------------------------------

Speed Settings

- 0-400 RPM (Low)
- 0-1400 RPM (High)

Drilling Capacity

Maximum Drilling Capacities

Material	Capacity
Wood	23mm
Steel	10mm
Screw (M-size)	M8

Design & Build

Chuck Size	10 mm
Model Number	BC0102T
Key Features	Cordless, Two-Speed Gearbox, Impact Function, Li-ion Powered
