Product Overview

Innovative Fabric Care

This advanced 10kg front-loading washing machine utilizes live oxygen technology for chemical-free cleaning, sterilization, and deodorization, ensuring safety for delicate fabrics and infant clothing. Equipped with a direct drive frequency conversion motor, it delivers high-performance cleaning at 43dB, making it exceptionally quiet for home environments. The machine features an integrated drying system, high-temperature self-cleaning capabilities, and 12 specialized programs to handle diverse laundry needs from silk to heavy-duty denim.

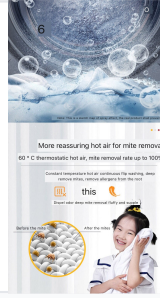

Performance

Maglev direct drive technology ensures quiet, powerful, and accurate drum rotation.
