

10kW Commercial Generator for Communication Stations

This 10kW generator is designed for commercial use in 4G and 5G communication stations. It provides a reliable and stable power supply for critical communication infrastructure.

Overview

Professional Power Solution for Critical Infrastructure

This 10kW commercial-grade generator is specifically engineered to support 4G and 5G communication stations, ensuring continuous and reliable power. Built for durability, it features an advanced OHV engine, intelligent protection mechanisms, and remote control capabilities via Bluetooth. Its robust open-frame design, combined with a large 40L fuel tank, makes it an ideal solution for remote locations or areas requiring stable, uninterrupted service.

Power Performance

10 kW

Start-up Power

8 kW

Rated Output

16 h

Running Time

40 L

Fuel Capacity

Technical Specifications

Detailed technical parameters and product architecture.

Engine and Electrical

Parameter	Specification
Engine Type	Single cylinder, 4 stroke, air cooled, OHV
Displacement	459cc
Rated Frequency	50/60 Hz
Voltage Options	110/120/220/230 V
Starting System	Recoil / Electric start
Noise Level	<75 dB(A) @ 7m

Features

Key Capabilities

Bluetooth APP Control, Automatic Transfer Switch (ATS), Intelligent Overload Protection, One-Push Start, Auto Choke

Durability

Reliability Standards

- Commercial-grade open frame design
- First failure time e500 hours
- Total lift time: 1000 hours
