

1.0L Electric Kettle

This electric kettle has a 1.0L capacity and operates between 850-1000W. It is designed with a heat-resistant plastic housing and a water level indicator.

Product Overview

Efficient 1.0L Electric Kettle

This compact 1.0L electric kettle is designed for efficiency and convenience in any professional or hospitality setting. Featuring a heat-resistant plastic housing and a stainless steel heating element, it ensures rapid boiling while maintaining safety with automatic shut-off and overheating protection. Its cordless base and dual water level gauges make it an easy-to-use solution for daily beverage preparation.

Technical Specifications

Power & Performance

1000 W
Max Power

1 L
Capacity

240 V
Max Voltage

Electrical Requirements

- Voltage: 220-240V
- Frequency: 50/60Hz
- Power: 850-1000W

Features & Design

Design Highlights

- Heat-resistant plastic housing
- Double transparent water level gauge
- Cordless power base
- Stainless steel heating element
- Removable and washable filter
- Indicator light

Safety & Compliance

CE, GS, ROHS, Overheating Protection, Automatic/Manual Switch Off
