

10L Medical Oxygen Concentrator with Dual Outlets

This 10L oxygen concentrator delivers stable oxygen output. It features dual oxygen outlets for simultaneous use and is designed with a timer for automatic shutdown.

ADDITIONAL IMAGES

Overview

High-efficiency medical oxygen generation with dual-outlet capability.

Suitable for diverse users including the elderly, pregnant women, and patients.

Professional Medical Oxygen Solutions

This 10L medical-grade oxygen concentrator is designed for reliable home care and clinical support. Featuring a high-efficiency lithium molecular sieve and an oil-free compressor, it delivers stable, high-purity oxygen. The dual-outlet design allows for simultaneous use by two individuals, making it an versatile solution for respiratory therapy in both home and medical settings.

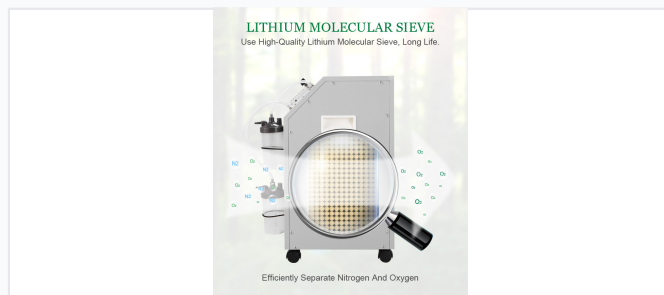

Performance

Concentration by Flow Rate

Flow Rate	Concentration
1L	96.2%
2L	96.0%
3L	95.8%
4L	95.5%
5L	94.8%
6L	94.3%
7L	94.0%
8L	93.7%
9L	93.4%
10L	93.2%

Flow Rate Range	10 L/min
Oxygen Concentration	93% ± 3%
Output Pressure	0.03~0.07 MPa

Technical Specifications

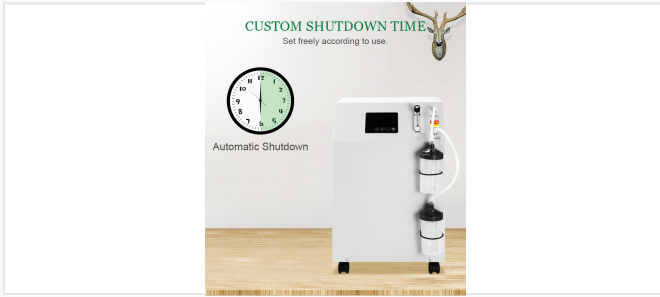

Advanced lithium molecular sieve for long-life oxygen separation.

Durable construction with easy-roll wheels for mobility.

Rated Power	700 W
Sound Level	d5&B(A)
Net/Gross Weight	31/33 Kg

Features

User-friendly control panel with customizable shutdown timer.

Dual oxygen outlets allow two people to use the device simultaneously.

Key Features

- Dual oxygen outlets for simultaneous use
- High-quality lithium molecular sieve
- Programmable timer with automatic shutdown
- Oil-free compressor
- Integrated humidification system
- Mobile design with wheels

Certifications

CE Certified, Medical Standard
