

1.0L Stainless Steel Electric Kettle

This electric kettle has a 1.0L capacity and operates at 1850W for rapid boiling. It features a durable stainless steel body with a water level indicator and an easy-pour spout.

Overview

Efficient Stainless Steel Kettle

This 1.0L electric kettle combines durable stainless steel construction with rapid boiling performance. Designed for convenience and safety, it features a concealed heating element, 360-degree rotation, and multiple protection mechanisms including dry-boil and overheat safeguards. The integrated LED illumination provides a modern aesthetic while the compact capacity makes it an ideal choice for home or office environments.

Technical Specifications

Power Rating

1850 W
Min Power

2200 W
Max Power

Capacity

1 L

Voltage & Frequency

220-240V ~ 50/60Hz

Heating Element

Stainless steel concealed

Temperature Controller

FADA Controller

Features & Safety

Safety Features

- Overheat protection
- Dry boiling protection
- Automatic boiling shut-off
- Hinged lid with safety lock

Design Features

LED Illumination, 360-degree Rotation, Water Gauge, Removable Filter, Cord Storage

Compliance

Certifications

CB • CE • GS • RoHS
