Product Overview

Versatile Cordless Lighting Solution

This 10.8V Li-ion cordless COB work light is a portable and highly versatile lighting solution designed for demanding work environments. Featuring a powerful 10W COB (Chip-on-Board) LED, it delivers bright, uniform illumination suitable for workshops, garages, and construction sites. Its cordless design ensures maximum flexibility and easy maneuverability, powered by a long-lasting lithium-ion battery for reliable performance.

Technical Specifications

Rated Power

10 W

Power Output

Power Source

10.8V Lithium-ion Battery

Light Source

COB (Chip-on-Board) LED

Usage & Applications

Ideal Environments

Workshops, Garages, Construction Sites, Automotive, Maintenance

Features

Product Highlights

- Cordless design for flexible positioning
- Uniform light output
- Long-lasting battery performance
- Easy maneuverability
