

10W Hot Melt Glue Gun

This 10W glue gun is a versatile tool for bonding applications. It features a rapid heating system and ergonomic design for comfortable handling and precise glue placement.

Product Overview

Versatile Hot Melt Glue Gun

This hot melt glue gun is a reliable tool designed for efficient bonding in various applications, including crafts, repairs, and DIY projects. It features a rapid heating system and an ergonomic design for comfortable handling and precise glue placement. With options available for both US and EU electrical standards, it provides a flexible solution for international users.

Technical Specifications

US Version Configuration

| Specification | Value |
|---------------------|---------------|
| Power | 10W |
| Voltage | AC120V / 60Hz |
| Glue Flow | 4.5g/min |
| Glue Stick Diameter | 7.2mm |

EU Version Configuration

| Specification | Value |
|---------------------|--------------------|
| Power | 12(70)W |
| Voltage | AC230V-240V / 50Hz |
| Glue Flow | 4.5g/min |
| Glue Stick Diameter | 7.2mm |

Features

Key Features

- Integrated working light for visibility
- Ergonomic design for comfortable handling
- Precision nozzle for accurate application
- Rapid heating system
