

110-130 HP Wheel Tractor with Front Loader

This wheel tractor, with a power range of 110 to 130 HP, is designed for agricultural applications. It features a front-end loader attachment, heavy-duty tires, and a fully enclosed cabin, making it suitable for plowing, tilling, and material handling.

Product Overview

High-Performance Versatility

This 110-130 HP wheel tractor is engineered for demanding agricultural environments, combining raw power with precise material handling capabilities. Featuring a high-torque engine and a robust hydraulic system, it excels in intensive tasks such as plowing, tilling, and heavy-duty transport. The integrated front-end loader transforms this machine into a versatile multi-purpose tool, while the fully enclosed, comfort-focused cabin ensures operator efficiency during long shifts.

Technical Specifications

Engine Power Output

110 HP Minimum Power	130 HP Maximum Power
