

110 KVA Diesel Generator Set

This diesel generating set provides a reliable power source with a capacity of 110 KVA. It features a robust diesel engine coupled with a high-efficiency alternator, ensuring stable and consistent power output.

Product Overview

Reliable 110 KVA Power Solution

This 110 KVA diesel generator set is engineered for consistent and stable power delivery in industrial, commercial, and residential environments. Designed for durability, the unit features a high-efficiency alternator and a robust base frame that minimizes vibration during operation. It includes a comprehensive control interface, allowing operators to monitor essential metrics like voltage, frequency, and engine status in real-time.

Technical Specifications

Rated Power Capacity

110 KVA
Capacity

Key Features

Vibration Isolation, High-Efficiency Alternator, Robust Base Frame

Safety & Control

Safety Protections

- Overload protection
- Low oil level shutdown
- High-temperature shutdown

Control Panel Monitoring

- Voltage
- Current
- Frequency
- Engine performance
