Overview

High-Performance 1100W Angle Grinder

This professional-grade angle grinder is powered by an 1100W Hurricane Motor, engineered for high anti-overload capabilities and rapid material removal. Its ultra-slim 180mm body grip ensures comfortable one-handed operation, making it ideal for extended use in narrow or demanding workspaces. Equipped with advanced safety features and high-efficiency cooling, this tool is built for durability in harsh industrial conditions.

Performance Highlights

1100 W

Rated Power

13000 RPM

No-Load Speed

100 mm

Disc Diameter

Technical Specifications

Technical Data

Parameter	Value
Model Number	9910S-2
Spindle Thread	M10
Net Weight	1.5 kg
Body Grip Perimeter	180 mm
Switch Type	Rear / Back Switch

Design & Durability

Motor Protection

Auto-Stop Carbon Brush • Double Insulation • High Overload Resistance

Cooling Technology

Shark Gill design with 30% increased air inlet area for high-efficiency heat dissipation.

Safety & Operation

Safety Features

- 2-stage switch to prevent accidental starts
- Metal protective guard for debris shielding
- Rear switch design for convenient operation
- Slim body for secure one-handed grip

Applications

Primary Applications

Cutting, Grinding, Descaling, Metalworking, Construction

Package Contents

Included in the Box

- Angle Grinder Unit
- Wrench
- Side Handle
- Protective Guard
