

110cc Commuter Motorcycle with Rear Cargo Rack

This commuter motorcycle is suitable for urban environments and commercial applications. It features a 110cc engine, step-through frame, and rear rack for carrying cargo.

Overview

Versatile Commuter Motorcycle

Designed for urban commerce and daily living, this 110cc motorcycle is an ideal solution for businesses requiring reliable transport for takeaway deliveries, express courier services, or passenger transport. Its step-through frame ensures ease of use for riders of all sizes, while the integrated rear cargo rack maximizes utility for daily errands. Built for maneuverability and efficiency, it serves as a practical asset for small business operations.
