

110cc Utility Motorized Tricycle

This 110cc motorized tricycle is designed for utility or personal transportation. It features a single front wheel, two rear wheels, and a rear cargo area.

Product Overview

Versatile 110cc Utility Tricycle

This 110cc motorized tricycle is engineered for reliable utility and personal transportation. Featuring a robust steel tube frame and a stable three-wheel configuration, it offers a practical solution for moving goods or passengers. The gasoline-powered engine and integrated cargo area make it an ideal choice for B2B buyers seeking efficient short-distance transport capabilities.
