Product Overview

Professional Segmented Diamond Blade

This high-performance segmented diamond saw blade is engineered for efficient cutting of hard construction materials including concrete, brick, tile, and stone. The segmented rim design facilitates rapid material removal and superior heat dissipation, ensuring both dry and wet cutting versatility. Built for durability and high-speed operation, this tool meets rigorous safety standards for professional use.

Technical Specifications

Outer Diameter	115 mm
Bore Diameter	22.2 mm
Blade Thickness	2.1 mm
Segment Height	8 mm

Performance Metrics

Maximum RPM

12200 RPM
Max Speed

Max Peripheral Speed	80 m/s
