

115x1.2x22mm INOX Cutting Disc

This cutting disc has dimensions of 115x1.2x22mm. It is designed for cutting INOX and other metals.

Product Overview

Professional INOX Cutting Disc

This high-performance cutting disc is specifically engineered for precision cutting of INOX (stainless steel) materials. Featuring a flat T-41PA profile, it ensures clean, efficient cuts while maintaining structural integrity. Built to meet rigorous safety standards, this disc is an essential tool for metal fabrication and industrial applications requiring high-speed, reliable performance.

Technical Specifications

Dimensions

115 mm
Diameter

1.2 mm
Thickness

22 mm
Bore Diameter

Performance Limits

13200 min-1
Max RPM

80 m/s
Max Velocity

Compliance

EN 12413

Design and Application

Material Suitability

INOX • Stainless Steel

Disc Shape

Flat (T-41PA)

Specification Code

A60TBF
