

1.1kW Gasoline Generator with Voltmeter

This gasoline generator provides a reliable AC power source. It features a voltmeter for monitoring output and includes circuit protection.

Overview

Reliable Power Generation

This gasoline generator set is designed to provide consistent and reliable AC power for various applications. It features a robust 3.0 HP, 4-stroke OHV engine capable of delivering a maximum output of 0.55 kW. Equipped with a built-in voltmeter for real-time monitoring and 100% copper wiring, this unit ensures durability and performance for professional use.
