

# 12-Inch Car Audio Subwoofer

This 12-inch subwoofer is designed for car audio systems. It features a durable cone, high-excursion surround for deep bass response, and a robust voice coil for handling high power levels.

## Overview

### High-Performance 12-Inch Subwoofer

This 12-inch subwoofer is engineered to deliver accurate and impactful low-frequency reproduction for automotive audio environments. Featuring a durable black injection PP cone with a foam surround, it provides the excursion necessary for deep, resonant bass. Built with a robust black steel basket and high-performance ferrite magnet, this unit is designed for reliability and consistent performance in both sealed and ported enclosure setups.

## Construction

Basket Finish	Black steel basket with wrinkle finish
Cone Material	Black injection PP cone
Surround Material	Foam

## Technical Specifications
