

12-Inch Car Audio Subwoofer

This 12-inch subwoofer is designed for car audio applications. It features robust construction with a reinforced cone and high-excursion surround for deep, accurate bass.

Product Overview

High-Performance Bass Engineering

This 12-inch car audio subwoofer is engineered for deep, accurate bass reproduction in demanding automotive environments. It features a robust, die-cast basket construction paired with a high-performance ferrite magnet motor structure for consistent power handling. Designed for versatility, the unit is compatible with sealed, ported, or bandpass enclosures, making it an ideal choice for custom audio installations.

Construction & Materials

Basket Material	Die cast with black sanding finish
Cone Material	Black PP (Polypropylene)
Surround Material	Rubber

Motor Structure

Motor Structure Components

- Blue zinc T-yoke
- Blue zinc Washer
- High performance Ferrite Magnet

Voice Coil & Thermal

Voice Coil Specifications	Heat-resistant Kapton former, Copper wire
---------------------------	---

Application

Compatible Enclosures

Sealed • Ported • Bandpass
