

12-inch Children's Bicycle with Training Wheels

This children's bicycle features a 12-inch steel frame and includes training wheels. It is equipped with caliper brakes and front and rear fenders.

Product Overview

Designed for Young Riders

This 12-inch children's bicycle is engineered with safety and durability in mind, making it an ideal choice for beginners learning to ride. Featuring a sturdy steel monocoque frame and reliable front and rear caliper brakes, it provides a stable and controlled riding experience. The inclusion of air tires ensures a smooth ride on various surfaces, while the robust steel construction supports long-term use.
