

1/2 inch Light Duty Keyed Drill Chuck

This light-duty keyed drill chuck has a 1/2 inch (13mm) capacity. It is designed for a wide range of drilling and machining tasks.

Overview

Precision Keyed Drill Chuck

This 1/2 inch light duty keyed drill chuck features a plain bearing design specifically engineered for portable power tools. Every unit undergoes 100% inspection to ensure performance and precision, making it a reliable choice for industrial applications. The jaws are center-ground to maintain perfect straightness and alignment during operation.
