

12-Inch Steel Frame Children's Bicycle with Training Wheels

This children's bicycle features a 12-inch steel frame and air-filled tires. It is equipped with training wheels for added stability.

Overview

Designed for Young Riders

This 12-inch children's bicycle is engineered for stability and ease of use, making it an ideal choice for beginners. Built with a durable steel frame and equipped with training wheels, it provides a safe and reliable platform for children learning to ride. The inclusion of responsive caliper brakes and an imitation downhill suspension fork ensures a smooth and controlled riding experience.
