

12-Inch Surface Grinding Wheel with 9A46 Abrasive

This 12-inch grinding wheel is designed for surface grinding applications. It features a 9A46 abrasive grain and is suitable for tool and die making, precision machining, and general grinding.

Product Overview

Professional Grade Surface Grinding Solution

This 12-inch surface grinding wheel is engineered for demanding material removal and high-precision finishing tasks. Utilizing 9A46 abrasive grain, it provides consistent performance across various steel types and metals. It is an ideal choice for tool and die making, precision machining, and standard industrial grinding operations.

Technical Specifications

Diameter	12 inches
Thickness	1 inches
Arbor Hole Diameter	3 inches
Abrasive Grain Type	9A46 Aluminum Oxide

Applications & Compatibility

Primary Use Cases

- Tool and die making
- Precision machining
- General grinding operations
- Rough grinding

Compatible Materials	Carbon Steel, General Steel, Malleable Cast Iron, Hard Bronze
