

1/2 Inch Threaded Brass Gas Valve with Red Handle

This brass gas valve is designed to control gas flow. It features a 1/2 inch nominal size and threaded connections for secure attachment.

Product Overview

Professional Grade Gas Control

This 1/2 inch threaded brass gas valve is engineered for reliable flow control in demanding gas applications. Constructed with a durable brass body, it offers excellent corrosion resistance and long-term performance. The distinct red handle provides quick visual identification for safety and operational efficiency.
