

12-Inch Torpedo Level with Three Vials

This compact torpedo level is 12 inches in length. It features three vials to measure level, plumb, and 45-degree angles.

Overview

Compact Precision for Professionals

This 12-inch torpedo level is a versatile tool designed for accuracy in tight, confined spaces. Featuring three distinct vials, it allows for precise measurements of level, plumb, and 45-degree angles. Its robust design, including a magnetic base and a v-groove for pipes, makes it an essential instrument for plumbers, electricians, and carpenters alike.

Technical Specifications

Length	12 inch
