Overview

Professional 12-inch Combination Planer

The 12-inch Wood Jointer Planer Thicknesser is a versatile dual-purpose machine engineered for professional woodworking workshops. By combining jointer and thicknesser functions in one footprint, it provides significant space savings without compromising on performance. The unit features a user-friendly flip-top design for rapid transitions between operations and high-quality hand wheels for precise table adjustments.

Technical Specifications

Max Planing Width	12 inch
Planing Depth Range	3 mm
Thicknessing Height Capacity	120 mm
Thicknessing Feed Rate	3.2 mm/sec

Features

Core Advantages	Dual-Function Design, Spiral Cutter Block Option, Easy Conversion, Precision Hand Wheels
-----------------	--

Safety & Construction

Safety Equipment

- Integrated blade guards
- Emergency stop mechanisms
- Robust vibration-reducing frame
