Product Overview

Industrial Precision Drilling

The ZT-19G 12-speed pedestal drill press is engineered for professional industrial and workshop environments requiring high versatility. With a robust 550W motor and 12 distinct speed settings ranging from 250 to 3200 RPM, it offers precise control for various materials and hole diameters. The unit features a stable 350mm diameter pedestal table and a 100mm spindle stroke to accommodate demanding drilling tasks.

Technical Specifications

Max Borehole Diameter	19 mm
Spindle Taper	MT2
Spindle Stroke	100 mm
Spindle Speed Series	12
Speed Range	250-3200 RPM

Dimensions and Capacity

Motor Power	550 W
Table Size	350 mm
Column Diameter	80 mm
Total Height	1100 mm
