

# 12-Ton Hydraulic Bottle Jack

This heavy-duty hydraulic bottle jack is designed for lifting and supporting heavy loads. It features robust steel construction and a safety overload system.

## Product Overview

### Heavy-Duty Lifting Performance

This 12-ton hydraulic bottle jack is engineered for professional-grade lifting and support in demanding automotive, construction, and industrial environments. It features a robust, durable steel construction paired with a high-quality hydraulic pump for consistent reliability. Designed with user safety in mind, it includes an integrated overload protection system to prevent operation beyond its rated capacity.

## Technical Specifications

### Rated Lift Capacity

**12 ton**  
Capacity

### Key Construction Features

- Robust steel frame for heavy-duty durability
- Heat-treated extension screw for adjustable height
- Wide base design for enhanced stability under load

### Safety Standards

Overload protection system, Industrial grade

## Applications

### Ideal For

- Automotive lifting
- Construction site support
- Industrial machinery maintenance
