Overview

Professional 1200mm Manual Tile Cutter

The 8102G-2S is a top-tier professional manual tile cutter designed for high-precision scoring and snapping of large-format tiles. It features a robust metal base and a smooth-gliding sliding bar with durable ball bearings, ensuring accurate results on materials like ceramic, porcelain, and mosaics. Built for the job site, it includes transport wheels and extension arms for handling heavy, oversized tiles with ease.

★★★★★

Detailed dimensions and weight specifications for the 8102G-2S series.

Model Specifications

Model	Max Cutting Length	Max Cutting Width	Max Thickness	Net Weight
8102G-2S/900	900mm	635mm	16mm	11.5kg
8102G-2S/1200	1200mm	850mm	16mm	13.5kg

Design & Ergonomics

Mobility & Transport

- Integrated transport wheels
- Dedicated transport handle
- Optional nylon carrying bag

Handle Design

Human-engineering big handle with PP+TPR soft grip

Cutting Mechanism

Cutting Wheel

Coated tungsten-carbide cutting wheel with bearings (Ø22*Ø6*6mm)

Sliding System

Sliding bar with durable ball bearings for smooth scoring

Breaking Mechanism

Lockable breaking device for optimal visibility

Stability & Support

Support System

2 pairs of extension arms for stability with large, heavy tiles

Base Construction

Heavy-duty metal base

Application

Compatible Materials

Ceramic, Porcelain, Mosaics, Glass
