

# 1200W Halogen Room Heater with Four Heat Settings

This electric room heater has a power output of 1200W. It features four heat settings, a tip-over switch, and an oscillating function.

## Overview

### Efficient Halogen Heating Solution

This 1200W halogen room heater is designed for rapid and efficient warmth, utilizing four high-performance halogen tubes. With versatile power settings and a wide-angle oscillation function, it ensures comfortable heat distribution across any room. Safety is prioritized with a built-in tip-over switch and a protective front grill, making it a reliable choice for various indoor environments.

## Technical Specifications

Model Number	RL-16
Voltage & Frequency	220-240V, 50-60Hz, 110-127V Available

## Performance

### Heating Power Settings
