

1200W Home Espresso Machine

This espresso machine uses high-pressure steam extraction for optimal coffee flavor. It is compatible with both coffee bags and ground coffee, and includes a mobile water tank and cup preheating function.

Overview

Professional Home Espresso Experience

This 1200W espresso machine is designed to bring café-quality coffee into the home environment. Featuring precise microcomputer control and high-pressure steam capabilities, it ensures consistent extraction and perfect milk frothing. With a versatile design that supports both coffee powder and pre-packaged coffee bags, it offers convenience without compromising on flavor.
