Product Overview

Industrial HDPE Pallet

This 1200x1000mm HDPE plastic pallet provides a durable and moisture-resistant solution for efficient material handling and storage. Constructed from high-density polyethylene, it offers a stable platform that is resistant to chemicals and impact. Its robust design is ideal for diverse logistical and manufacturing environments.

Technical Specifications

Dimensions	1200 x 1000 mm
Material	High-Density Polyethylene (HDPE)
Net Weight	12 KG
Model	PL1210-1000A

Performance Metrics

Load Capacities

1000 KG

Dynamic Load

3000 KG

Static Load

Features

Product Advantages	Moisture Resistant, Chemical Resistant, Impact Resistant, Durable Construction
