

120cm LED Tri-Proof Light

This 120cm LED tri-proof light is designed for robust and reliable lighting in demanding environments. Protected against moisture and dust, it offers efficient illumination, making it ideal for garages, workshops, and outdoor installations.

Product Overview

Robust Lighting Solution

This 120cm LED Tri-Proof Light is engineered for demanding environments where moisture and dust protection are essential. Featuring high-efficiency SMD2835 LEDs and a durable design, it provides reliable, uniform illumination for industrial and commercial spaces. Its robust construction ensures long-lasting performance, making it an ideal choice for warehouses, car parks, and workshops.
