

120W Variable Speed Scroll Saw

This 120W scroll saw is designed for intricate cutting in wood, plastic, and other materials. It features a variable speed control for optimal performance and an adjustable blade tension for accurate cuts.

Product Overview

Precision Cutting Performance

This 120W variable speed scroll saw is engineered for intricate cutting tasks in wood, plastic, and similar materials. It features a versatile speed range of 400-1600 strokes per minute, allowing users to adapt to various material densities. With a 406mm throat depth and a tilting table, it provides the flexibility needed for detailed bevel cuts and complex patterns.

Technical Specifications

Rated Power	120 W
Voltage/Frequency	230V / 50Hz
Duty Cycle	S2: 10MIN

Performance Metrics

Key Performance Metrics

1600 SPM

Max Speed

50 mm

Max Cutting Depth

406 mm

Throat Depth

Stroke Length	19 mm
