

124CC Single-Cylinder Four-Stroke Motorcycle

This motorcycle features a single-cylinder, water-cooled, four-stroke engine. It has a 5-speed gear shift pattern and a maximum power output of 8.2 kW at 8500 rpm.

Overview

Reliable 124CC Commuter Motorcycle

The QP125-F is a robust single-cylinder, four-stroke motorcycle designed for efficiency and everyday utility. Featuring a 124CC air-cooled engine and a responsive 5-speed gear system, it provides a stable and reliable riding experience with a maximum speed of 85 km/h. Its compact frame and low fuel consumption of 2.1 L/100km make it an ideal choice for urban transport and commercial fleet applications.
