Product Overview

Professional Circuit Protection

The CKDB11 series miniature circuit breaker provides reliable overload and short-circuit protection for demanding environments including public constructions, industrial facilities, and transport infrastructure. Designed for AC 50/60Hz lines with 230/400V ratings, this 2-pole unit ensures operational safety with integrated contact indicators and finger protection. It is built to meet rigorous international standards, making it a robust choice for both domestic and industrial power distribution systems.

Technical Specifications

Rated Current

125 A

Rated Current

Rated Voltage	230 / 400V
Short-Circuit Breaking Capacity	10 kA
Impulse Withstand Voltage	8 kA
Number of Poles	2

Standards & Compliance

Application Category

Category A

Compliance Standards	IEC/EN 60898-1, IEC/EN 60947-2, GB 10963.1, GB 14048.2
----------------------	--

Features

Core Features

- Overload protection
- Short-circuit protection
- Finger protection terminals
- Contact closing/opening indicators

Applications

Typical Applications

- Schools and Hospitals
- Office Buildings
- Railway and Subway Systems
- Petrochemical Industries
- Steel Industries
- Airports
