

125cc Commuter Motorcycle

This commuter motorcycle is equipped with a 125cc engine, balancing power and fuel efficiency. It features a telescopic front fork, rear swingarm suspension, and both electric and kick start.

Overview

Reliable Urban Commuter

The 125cc Commuter Motorcycle is engineered for efficient and reliable daily transportation in urban environments. It features a balanced 125cc engine that prioritizes fuel economy without sacrificing essential power for city travel. With a comfortable step-through frame design and dual-braking system, this motorcycle offers a practical and safe solution for short-distance commuting needs.
