

125cc Cruiser Motorcycle with Backrest and Panniers

This cruiser-style motorcycle features a classic design with modern components. Its 125cc engine provides adequate power for city commuting and leisure riding.

Overview

Classic Cruiser Design

The JL125-13 is a stylish cruiser-style motorcycle designed for both city commuting and leisure riding. It blends a classic aesthetic, featuring chrome accents and a traditional round headlight, with modern mechanical components. Equipped with a reliable 125cc engine, this motorcycle offers a comfortable and practical solution for everyday riders.
