

125cc Gas Scooter

This scooter is equipped with a 125cc engine, providing a balance of power and fuel efficiency. It features a comfortable seat and modern design.

Overview

The ROME IV features a modern, compact design optimized for urban navigation.

Urban Mobility Redefined

The ROME IV is a stylish and efficient scooter engineered for seamless urban commuting and leisure rides. Combining a 125cc displacement with responsive handling, it strikes an optimal balance between power and fuel economy. Its compact design and agile maneuverability ensure riders can navigate crowded city streets with ease, while modern features enhance overall safety and convenience.
