

125cc Street Motorcycle with Alloy Wheels

This street motorcycle has a 125cc engine and ABS front fender. It comes with alloy wheels, a chrome mirror, and a rear carrier.

Overview

Built for Reliable Urban Commuting

This 125cc street motorcycle combines classic design with practical functionality for daily transportation. Equipped with a reliable four-stroke, air-cooled engine, it offers efficient performance for urban environments. Enhanced safety features include an ABS-equipped front fender and a front disc brake system, while the alloy wheels and rear carrier ensure both durability and utility for the rider.
