Overview

Versatile Urban Commuter

This 125cc underbone motorcycle is engineered for efficiency and reliability in urban environments. Featuring a 4-stroke, air-cooled engine and an auto-clutched 4-gear transmission, it offers a balanced performance for daily transportation. With its lightweight design and agile handling, it provides a practical solution for navigating congested city streets while maintaining excellent fuel economy.

Engine & Performance

Max Power

6.6 kW
Max Power

8000 rpm
at RPM

Max Torque

8.8 N.m
Max Torque

6000 rpm
at RPM

Engine Type Single-cylinder, air-cooled, four-stroke

Displacement 125 mL

Fuel Consumption d1.5L/100km

Dimensions & Capacity

Dimensions (LxWxH) 1900x700x1120 mm

Net Weight 101 kg

Fuel Tank Capacity 3.5 L

Technical Specifications

Equipped with modern features like an LCD instrument panel, Bluetooth multimedia connectivity, and a USB interface.

Key Features

- LCD Instrument Panel
- LED Turn Signals and Taillights
- USB Interface
- Bluetooth & Radio Multimedia
- Air Bag Rear Shock Absorbers

Transmission	4 gears, auto-clutched
Starting System	Electric Start, Kick Start
Braking System	Front Disc / Rear Drum
Wheel Type	Al-alloy
