

125cc Urban Commuter Motorcycle

This motorcycle is equipped with a 125cc engine and designed for urban commuting. It features a front headlight fairing, single seat, rear carrier, and chrome exhaust.

Product Overview

Urban Commuter Efficiency

This 125cc motorcycle is engineered specifically for efficient urban commuting and light touring applications. Featuring a streamlined design with a front headlight fairing and a practical rear carrier, it balances utility with maneuverability. The inclusion of a front disc brake ensures reliable stopping power for daily city navigation.
