

# 125cc Urban Commuter Scooter

This scooter is designed for urban transport, providing a balance between performance and fuel efficiency. It features an automatic transmission, a comfortable seat, and a step-through frame for easy access and practicality.

## Overview

### Urban Mobility Solution

The 125cc Urban Commuter Scooter is engineered for efficient city transportation, balancing reliable performance with fuel economy. Its step-through frame design prioritizes rider convenience, making it easy to mount and dismount while providing practical space for carrying daily items. Equipped with an automatic transmission and a comfortable dual-seat configuration, this scooter offers a smooth and accessible riding experience for both the operator and a passenger.
